NEW WATER AND WASTEWATER RATES

The proposed budget for the fiscal year beginning July 1, 2013, includes new minimum rates for water and wastewater service. Water will decrease from \$39.55 to \$34.50, and wastewater will increase from \$35.45 to \$60.85. Why is that?

Water and wastewater services are funded by user fees and charges as opposed to general tax revenues. Each year the Town reviews projected expenses, numbers of connections, and results from previous years to determine the rate that must be charged to generate the revenue needed to provide these services. Expenses can vary markedly from year to year due to a variety of factors: changes in government regulations, equipment repair and replacement, major capital projects, availability of offsetting grant revenue, etc.

The main driver of the increase in the wastewater rate is the debt service on the new treatment plant. A new plant needed to be built to both meet new nutrient discharge regulations and to replace the existing plant that was nearing the end of its service life. The total cost of this project was about \$19.2 million. The Town was fortunate to obtain two grants (Virginia Water Quality Improvement Fund and American Recovery and Reinvestment Act) to cover almost 73% (\$14 million) of the cost. The remaining amount is being financed by a 20 year, no-interest loan provided by the Commonwealth of Virginia. The debt service associated with this loan comprises most of the wastewater rate increase. While the annual debt service is significant, it is much less than what would have been experienced had grants not been available or if the Town had to borrow at interest rates typically available. For example, the annual debt service would be about \$90,000 higher if the loan were at an interest rate of 3.25%. This would equate to almost \$7 more per month for each customer.

Why did the Town need to obtain grants and a loan to build the new plant? Because, since the mid-1980s, both service rates and new connection charges were set too low to accumulate a capital replacement reserve.

2013 REAL ESTATE TAX RATE

The proposed Fiscal Year 2013-2014 Budget shows a total budget of \$7,180,586 for all funds, with the General Fund portion being \$2,957,183. The General Fund includes \$1,110,000 in Capital projects related to the Cape Charles Multi-Use Trail, Fishing Pier Repairs, Handicap Accessibility for the former library and a sidewalk near the 700 block of Randolph. The Town will receive \$986,649 in grants or local/state/federal aid to help offset these Capital improvements in the General Fund. Total operating expenses excluding capital items in the 2013-2014 General Fund are similar to prior year totals.

In 2013, Northampton County performed a reassessment of real property, which will be effective in the FY2013-2014 budget year for the 2013 real property tax bills. In 2012, total overall assessments were \$623,140,200 and the Town of Cape Charles charged a real estate tax rate of \$.1828 per \$100 of assessed value. The 2013 assessments from the County were \$409,709,500, which was an overall decrease of 35% for the Town of Cape Charles. Total land values decreased 46% from \$379,603,900 in 2012 to \$206,268,800 in 2013. Total improvement values decreased 16% from \$243,536,300 in 2012 to \$203,440,700 in 2013.

A rate of \$.2674 would have been needed to collect the same dollar amount from FY2012-2013 to FY2013-2014 in real estate taxes. To cover additional expenses of \$33,146 related to capital, the rate was increased an extra \$.0085 per \$100 of assessed value. The adopted 2013 real estate tax rate is \$.2759 per \$100 of assessed value and helps cover the 35% decrease in the reassessment, as well as additional match dollars needed related to the Cape Charles Multi-Use Trail. In a study performed based on the Northampton County proposed real estate tax rates and the new Town of Cape Charles rates, we found that many properties in Town will end up paying less tax dollars overall in 2013 compared to 2012. However, some properties will see a tax dollar increase if their assessments did not decrease as much as other properties.

MASON AVENUE IMPROVEMENTS

As funding is available, the Town undertakes efforts to improve the look of our central business district along Mason Avenue. We have recently replaced the street light globes with a more appropriate design. We have just purchased 10 Japanese Red Maples donated to Arts Enter Cape Charles for use at the Benefit by the Bay. Public Works will be planting them at various locations in the near future. We are also in the process of procuring replacement for the faded banners attached to the light poles. These improvements, along with the sidewalk repairs being done by VDOT, should result in a more inviting streetscape.

 - Reviewing existing issues regarding the signage regulation.
 - He will be meeting with Heather Arcos to discuss the options regarding the upcoming Comprehensive Plan update.
- VDOT:
 - A response was received regarding the handicapped parking spaces at the St. Charles Catholic Church and found that the current configuration did not meet Americans with Disabilities Act Accessibility Guidelines (ADAAG). VDOT noted infrastructure improvements that would bring the location into ADAAG compliance. VDOT also suggested that if the Town or the church did not wish to make the needed infrastructure improvements, an alternative may be that the church obtains some sandwich board-type signs requesting congregants reserve those spaces for elderly or handicapped parishioners. These signs could be manually placed on Sunday morning and removed after services conclude. It should be noted that these signs would not be legally binding.
 - VDOT is expecting to complete its traffic study of the intersection of Fig Street and Randolph Avenue mid-June.
- The **Planning Commission** met on 6/4 and reviewed the following:
 - Rob was introduced to the Planning Commission.
 - The Commission was given a presentation and explanation of the Public Service Authority (PSA) by Assistant Town Manager Bob Panek, who is a Town representative and Chairman of the PSA. Discussion was also held regarding how future development in the area might affect the Town.
 - In the near future, the Commission will return to its review of the signage regulation and continue discussion regarding density and floor area ratio (FAR).
 - The second session for the Virginia Certified Planning Commissioners Program was scheduled for 6/10 and 6/11 and Commissioners Dan Burke, Sandra Salopek and Bill Stramm attended. Commissioner Andy Buchholz had a scheduling conflict and will be attending the session in December.
 - Due to the July 4th holiday, the Planning Commission meeting has been rescheduled to 7/9.
- The **Historic District Review Board** met on 5/21 and received training from Ms. Paige Pollard from the Commonwealth Preservation Group. Ms. Pollard formerly worked for the Virginia Department of Historic Resources.
 - The Board also reviewed an application for 621 Jefferson Avenue for modification to the rear dormer, roofline, window and door, and porch restoration. The application was approved as presented with the exception of the removal of the chimney.
